

Can't Love You Enough

(A Wedding Song)

Verse 1: I want to love you better, I want to love you more,
I want to give you everything your heart's been longing for.
Darling you deserve the best, more than I could give
If I loved you ev'ry moment for as long as I should live.

Chorus: I just can't love you enough, I just can't show you enough,
You have my heart forever, Forever you can trust, my baby.
I just can't love you enough, I just can't hold you enough,
Nothing in this world could ever come between the two of us,
My friend, my heart, my love, I just can't love you enough.

Verse 2: I try to love you better, I try to love you more,
To fill your life with all the joy you've given me before.
I want to take you to the mountaintop and show the world to you,
But I never seem to reach the height that I aspire to.

[repeat chorus]

Bridge: I wanna show you ev'ry day that it's you alone I adore,
But no matter what I do, it should be more

Ending: ...My friend, my heart, my love,
I just can't love you enough,
I just can't love you enough,
I just can't love you enough.
