Good Enough

[Capo 2]

```
                 Am              E                    G
Verse 1:   Here I am on my knees again, Crying "oh please" again,
             D         E
           Forgiveness I need again.
           Am                  E                         G
           My heart is broken, my tears are real, I know You hear my appeal,
                        D         E          D         E
           But the question that I'm fighting is wondering if I'll ever be…

           Am      E                 Am
Chorus:    Good enough, my best isn't good enough
                   C        E
           And it never will be.
                Am      E            Am
           But if I can trust, rest in Your saving love
                  C             E
           Could Your cross be good enough,
           C                D            Am
           Your cross be good enough for me?

           Am                E                 G
Verse 2:   As I stand to my feet again I feel complete again,
                   D           E
           Till the next time we meet again.
           Am                 E                     G
           But I wish I could change it now, I always let You down,
            D         E      D        E
           Clean as the slate is, I always stain it again…

           [chorus]

           Am              E           Am
Bridge:    I want to be holy, I want to be true,
           C          D
           Like You, Jesus.
           Am              E                   Am
           But I do what I hate and I hate what I do,
            C          D
           Help me, Jesus,
           C                D
           To rest in Your grace,
                       C
           Help me to face
                                    E
           That in my own strength I'll never be…

           [chorus]

Good Enough

```
              Bm                F#                        A
Verse 1:    Here I am on my knees again, Crying "oh please" again,
              E              F#
            Forgiveness I need again.
            Bm                     F#                          A
            My heart is broken, my tears are real, I know You hear my appeal,
                     E          F#          E         F#
            But the question that I'm fighting is wondering if I'll ever be…

            Bm      F#              Bm
Chorus:     Good enough, my best isn't good enough
                     D        F#
            And it never will be.
                  Bm      F#            Bm
            But if I can trust, rest in Your saving love
                     D            F#
            Could Your cross be good enough,
            D             E              Bm
            Your cross be good enough for me?

            Bm                F#                  A
Verse 2:    As I stand to my feet again I feel complete again,
                     E          F#
            Till the next time we meet again.
            Bm                    F#                    A
            But I wish I could change it now, I always let You down,
              E           F#     E         F#
            Clean as the slate is, I always stain it again…

            [chorus]

            Bm              F#          Bm
Bridge:     I want to be holy, I want to be true,
            D        E
            Like You, Jesus.
            Bm               F#                Bm
            But I do what I hate and I hate what I do,
            D        E
            Help me, Jesus,
            D                E
            To rest in Your grace,
                         D
            Help me to face
                                      F#
            That in my own strength I'll never be…

            [chorus]
